GROOMING GUIDE

CLEAN & CONDITION

Bathing

Pour Vetrolin® Bath in a bucket and add warm water. Use a sponge or curry to work shampoo deep down to the skin. Use circular motions to deep clean the coat and stimulate circulation.

Bathing

To wash the tail, dunk it in a bucket and work the soap in gently with your hands. Use the tail ends to suds the entire tail. Don't scrub too hard—it can break off hairs.

Scrub the tail down to the roots. Lingering dirt becomes obvious if you braid your horse's tail for a show.

Tail Cleaning

Be sure to rinse your horse thoroughly. Soap residue can cause irritation.

When you're short on time, bathe your horse with Vetrolin® Body Wash. One-step shampoo applicator attaches to the hose to get deep down to the skin and blast out the dirt and sweat in just minutes!

After you've bathed your horse, clean your brushes by soaking them in the sudsy water for a few minutes. A clean brush helps keep your horse cleaner longer.

Money-Saving Tip:

*Vetrolin® Bath is concentrated. Just 2-4 oz of product cleans your entire horse!
Use less, save more, same great results.*

CLEANING TOUGH STAINS

For white and light-colored horses, mix Vetrolin® White 'N Brite™ with optical coat brighteners in a bucket of warm water. Sponge over entire body and leave on for 2-3 minutes. Rinse thoroughly.

For stubborn stains, apply Vetrolin® White 'N Brite™ full-strength and let sit for 5 minutes before rinsing.

Spot Cleaning

For urine-stained tails, soak tail in a bucket with Vetrolin® White 'N Brite™ for 5 minutes. Gently scrub soap into the top of the tail and rinse.

Use a spray-on dry clean shampoo when it's too cold for baths. Apply a small amount of Vetrolin® Green Spot Out directly on the spot. Massage in and wipe off using a damp towel. Repeat until stain is removed. Finish off with a dry towel and brush to bring out the shine.

PROTECTING THE COAT & HAIR

Use Vetrolin® Conditioner after shampooing to detangle and condition manes and tails, and to prevent hair from becoming dry and brittle.

Work Vetrolin® Conditioner into your horse's wet mane and tail with your fingers and rinse. If used as a leave-in conditioner, use a wide-toothed plastic comb to prevent hair breakage.

Vetrolin® Conditioner contains Solar Guard® Color-Keeper, a UV protectant that keeps mane, tail & coat from fading for up to 8 days.

Money-Saving Tip:

After shampooing the tail, spray it with Vetrolin® Shine to repel stains and cut down on tail washing.

DETANGLE

Managing Unruly Hair

Use Vetrolin® Detangler on wet or dry manes and tails to keep the hair tangle-free and more manageable. To minimize breakage, comb out tangled hair in small sections from the bottom up.

Detangling

Use a wide-toothed plastic comb on manes and tails, rather than a brush, to prevent hair breakage.

Use Vetrolin® Shine on knotted manes and tails to cut grooming time in half and reduce hair breakage. Spray on the mane or tail and let sit for 3-5 minutes before detangling knots.

SHINE

A good shine is the finishing touch. After shampooing, towel dry the coat, then liberally spray on Vetrolin® Shine. When coat is dry, brush or use a soft towel to bring out the luster. Vetrolin® Shine also repels dust and dirt to help keep your horse clean.

Shine

Repelling Stains

To prevent stains and make mud removal easier, spray your horse's body, mane, tail and legs with Vetrolin® Shine. Silicone in the spray coats the hair shaft, making it more difficult for stains to set and mud to harden.

Spray your horse with Vetrolin® Shine before trailering to repel dust and dirt, keeping your horse's coat clean.

Money-Saving Tip:

Spray Vetrolin® Shine on the mane and tail before turning your horse out. The silicone prevents knots from forming and burrs from getting stuck in the hair, reducing the amount of product normally needed to detangle difficult knots.

SOOTHE & INVIGORATE

If your horse is prone to stocking up, rub Vetrolin[®] Liniment or Liniment Gel onto your horse's legs to help reduce swelling.

Post Workout - Legs

Use Vetrolin[®] Liniment Gel directly on sore muscles. Apply a small amount to sore areas and gently massage into the muscle. The counter-irritant increases blood flow and stimulates circulation for a long-lasting heat sensation.

Refreshing Your Horse

Use Vetrolin[®] Liniment as a body brace after strenuous workouts to prevent sore muscles. Mix Vetrolin[®] Liniment with warm water and sponge over legs and major muscle groups.

On hot, humid days, Vetrolin[®] Liniment can be mixed with water to help cool down your horse.

Post Workout - Body

Money-Saving Tip:

Vetrolin[®] Liniment is concentrated and may be diluted with water for an economic, refreshing body brace your horse will love.

Clean & Condition

Vetrolin[®] Bath

Premium quality, high-sudsing shampoo contains protein-enriched conditioners, Vitamin E & PABA sunscreen to help protect the coat from harsh elements. Great for dogs too!

Vetrolin[®] Body Wash

Vetrolin[®] Bath formula in a one-step applicator that cleans without scrubbing. Eliminates buckets & sponges to make bathing easier after every ride.

Vetrolin[®]

White 'N Brite[™] Shampoo

Deep-cleaning, color-brightening shampoo brightens light-colored coats, enhances highlights on dark-colored coats and removes the worst yellow stains. Great for dogs too!

Vetrolin[®] White 'N Brite[™] Body Wash

All the great benefits of White 'N Brite[™] Shampoo in an easy-to-use spray applicator.

Vetrolin[®]

Green Spot Out

Spray-on dry clean shampoo removes stains easily; works great when there's no time or weather is too cold for bathing. Excellent spot cleaner for light-colored coats.

Vetrolin[®] Conditioner

Intense moisturizer with Solar Guard[®] Color-Keeper. Protects mane, tail & coat from fading for up to 8 days, while restoring strength and elasticity. Great for dogs too!

Detangle & Shine

Vetrolin® Detangler

Instant detangler and conditioner utilizes a cosmetic-grade silicone to leave manes & tails tangle-free with a healthy-looking shine.

Vetrolin® Shine

Ready-to-use spray contains salon-quality silicone plus conditioners to put a brilliant shine on coats and detangle manes & tails. This trusted favorite won't make hair brittle and minimizes breakage.

Soothe & Invigorate

Vetrolin® Liniment

Invigorating, aromatic liniment helps stimulate blood flow to relieve minor stiffness, soreness and inflammation. Makes a refreshing body brace.

Vetrolin® Liniment Gel with Hyaluronic Acid

This gel formula contains counter-irritants for a deep-penetrating warming sensation. Stimulates blood flow and provides instant relief for sore muscles & joints. Contains hyaluronic acid to nourish the coat.
